St. Luke's University Health Network representatives will be present at the event to promote their Community Health Needs Assessment Survey. Participation is optional, but IAALV strongly recommend you participate and help them to help us.

Message from St. Luke's Univ Health Network:

As part of the Patient Protection and Affordable Care Act, all non-profit hospitals are required to conduct a Community Health Needs Assessment (CHNA) every three years. In order to accomplish St. Luke goals, St. Luke's is conducting surveys to identify health needs within the community. Since you are a member of our community, you are being asked for your feedback to assist us in data collection. Your answers will be compiled by St. Luke's to determine health needs in the community. This is an ANONYMOUS survey. You must be 18 years or older to complete this survey. Please complete this survey ONLY ONE TIME. Thank you for participating in our survey.
